

ASX6600

STAND MIXER

OVERVIEW

Gear yourself up with a brand new way of simplifying your baking needs. The Aztech ASX6600 Stand Mixer is your kitchen's new premium partner when it comes to slow mixing, quick egg beating, efficient and consistent cream whipping, and best of all, powerful bread dough kneading. With its superior performance and top notch features, the Aztech 6600 Stand Mixer is Aztech Home's new kitchen innovation designed to bring your baking essentials to a whole new baking level.

Adopting an industrial look through its die-cast metallic body and 4L stainless steel bowl, the Aztech Stand Mixer combines a lockable tilt-head function to simplify bowl removal and a planetary mixing action to steadily reach all bowl areas. These primary features enable the ASX6600 to perform premium mixing, dough kneading, and even egg beating results effortlessly in just a simple tweak of its 12-Speed control knob which also flexibly allows you to easily transition from a soft or slow start (to avoid ingredient splatters) to fast whipping or beating speeds whenever needed — efficiently use the perfect speed function that works best in any of the included attachments (Dough Hook, Stirring Paddle, Whisk).

Perfected in even the tiniest of details, the Aztech ASX6600's stainless steel bowl comes with an integrated handle and an optional bowl cover to ensure clean mixing and ingredient transferring, a grooved bowl base to stably hold the steel bowl in place during operation, and even an anti-slip rubber footing to rigidly hold the whole appliance in place.
